CONFETTI FINISH

DESCRIPTION

CONFETTI FINISH is comprised of small acrylic particles and an invisible aggregate. It provides a low profile, multi-colored decorative effect that is used to increase traction, camouflage dirt, hide stains, dress-up an older coating application, change the appearance, or enhance the decor by tying a building's color scheme together. It can be used on top of new or old All Deck Coating System, Sure-Foot Decorative Finish, or Environmental Barrier II Wall Coating. It is applied in one or more contrasting colors to simulate the look of granite, stone, or marble. Confetti Finish is available in All Deck's 26 standard colors, in regular or fine grind.

APPLICATION

CONFETTI FINISHES is applied at the rate of 100 sq. ft. per one pound. It is broadcast dry through a hopper gun, splatter gun, lawn seeder, or by hand onto wet material. Application is done by two people simultaneously broadcasting Confetti Finish and rolling All Deck Finish Resin or Sure-Foot Top Coat. Broadcasting of Confetti Finish should be done at shoulder height, allowing confetti to fall to deck naturally. All Colors are applied at the same time. Colors and sizes are custom blended by manufacturer. Confetti Finish dries very quickly and should be applied in the coolest part of the day. It should be allowed to cure for three weeks before cleaning the surface. Do not use mechanical cleaning device, or high power equipment on the material. CAUTION: EYE PROTECTION SHOULD BE WORN DURING APPLICATION.

DESIGNS

Designs can be created by broadcasting Confetti Finish through any of our 15 reusable plastic stencil, or you can create your own custom designs using tape and/or masking paper.

WHERE TO USE

Confetti Finish can be used on any All Deck Coating System, Sure-Foot Decorative Finish, or EB II Wall Coating Installation, either existing or new. It is for camouflaging dirt or when a custom designed finish is desired.

COST

CONFETTI FINISH adds very little to the cost of an application, especially when applied at the time of the original coating application. The added cost is only pennies per square foot. When applied at a later date it requires an additional coat of Finish. It adds an extra degree of safety, as well as reducing maintenance requirements.

LIMITATIONS

May require periodic re-application.

WARRANTY

There is no warranty on Confetti Finish. It is an optional addition and therefore, is not covered by any other product warranty.
